**3. PROCESS OF GATHERING** 

# **INTRODUCTION**

There was no existing system for referring adolescent to Klinik Remaja from From July to October 2022, only 5 cases were referred from school to OPD Kesihatan and there was no case referred directly from school to Klinik Rema

### **TERMS AND DEFINITIONS**

**PP-38** 

#### **Adolescents**

World Health Organization (WHO) and United Nations Children's Fund (U defines "adolescents" as individuals in the 10-19 years age group.

Vulnerable

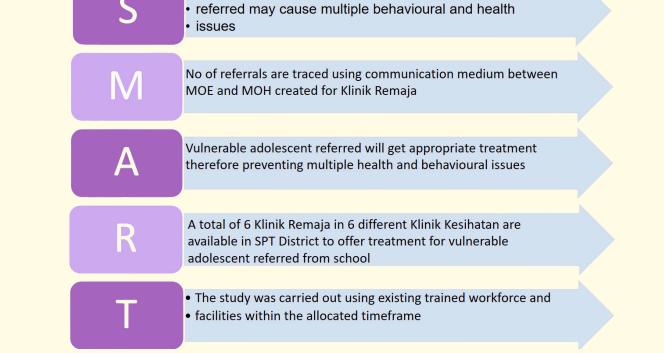

The ones not having certain of their basic rights fulfilled in terms of material, emotional and social aspects.

Vulnerable adolescent detected at school who are not

#### **4. ANALYSIS AND INTERPRETATION** st July 2022-31st Why Klinik Remaja? 022) wledge regarding Klinik Klinik Remaja Differences General settings to Specialized clinic to Healthcare workers adolescent patients 84.2% knows about Klinik ncluding communicable and only non-communicable 67.5% knows indication for diseases Staff Trained dedicated All staffs re-remedial phase 10-15 minutes per Consultation 1 hour slot per vulnerable adolescent patient depending on workload 2-4 weeks Appointment 3-4 months que Remaja

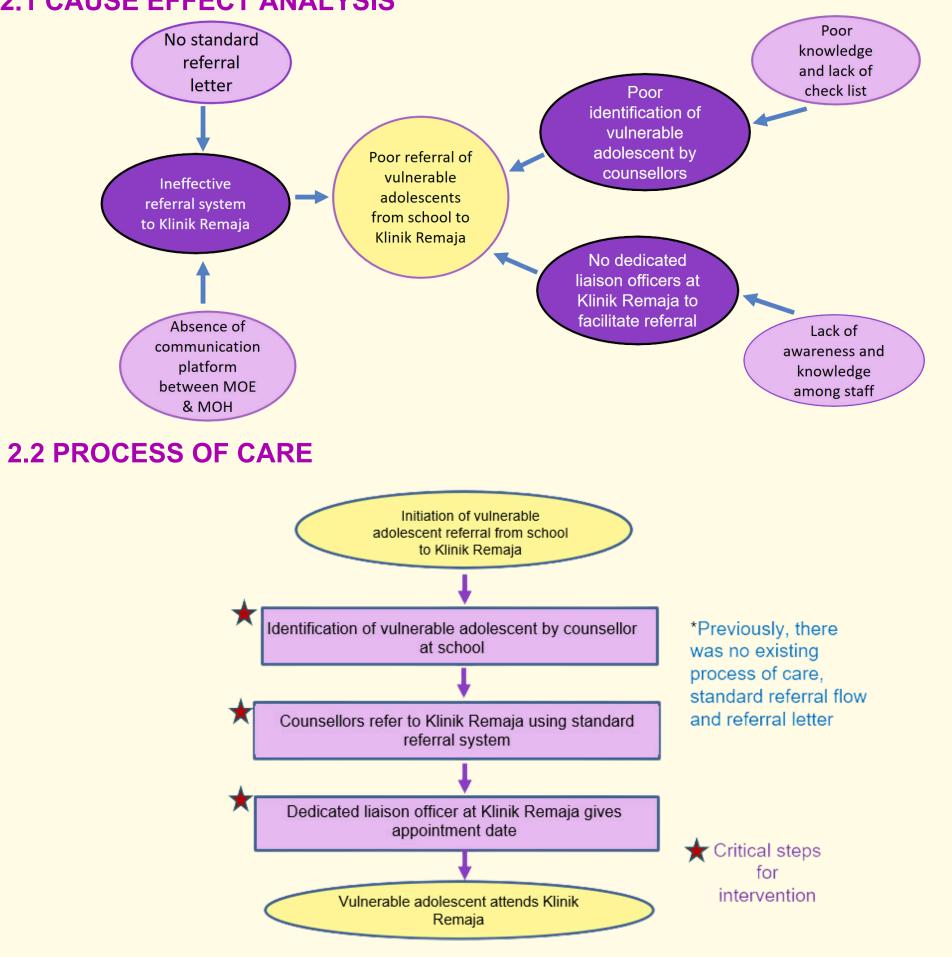

#### **1.2 LITERATURE REVIEW**

A cross-sectional survey done among secondary school adolescent in one of Malaysian's state reported very low utilization of the adolescent sexual and reproductive health services, as only 6.9% out of 680 adolescents had ever visited primary Healthcare facilities.

#### **1.3 PROBLEM STATEMENT**

- Counselors used school referral letter and non-standardised memo to refer adolescent to OPD in KK.
- Adolescent referred from school will get OPD appointment date first, then only referred to Klinik Remaja.
- Therefore, we aim to create a referral system where school counselors can easily refer adolescent and get earlier appointment date to Klinik Remaja in SPT District.

### **2. KEY MEASURES FOR IMPROVEMENT** 2.1 CAUSE EFFECT ANALYSIS

## **5. STRATEGIES FOR CHANGE**

#### **STRATEGY 4 - Standard referral letter STRATEGY 1 - Checklist with indication of referral**

#### **STRATEGY 5 - Communication Platform Between MOE & MOH**

### **8. THE NEXT STEP**

# 7. CONCLUSION

- This project has increase the percentage of referral from 0% to 67%
- Possible cause of poor referral of vulnerable adolescent from school was no establish referral system and low referral from counsellors due to lack of awareness and knowledge
- From our data, we manage to conclude that mental health and behavioural issues among adolescents has become one of the major healthcare burden

The total number of vulnerable adolescent referred from school to Klinik Remaja

Total number of vulnerable adolescent attending Klinik Remaja

STANDARD : 40% Based on current available appointment and healthcare resources. No current standard set by KKM.

#### 2.5 MODEL OF GOOD CARE

No	Process	Criteria	Standard	Pre- remedial	Phase 1	Phase 2
1.	Counsellor identify vulnerable adolescent at school	<ul> <li>Counsellor identify vulnerable adolescent according to criteria in checklist</li> <li>Use GAD-7 and PHQ-9 as a tool to screen adolescent's mental health *GAD-7 &amp; PHQ-9 score &gt;10 indicated for referral</li> </ul>	100% 100%	0% 0%	100% 67%	100% 100%
2.	Counsellors refer to Klinik Remaja using standard referral system	<ul> <li>Counsellor fills in standard referral letter</li> <li>Counsellor inform parents/guardian</li> <li>Counsellor forward referral letter to Telegram group (communication platform between MOE-MOH)</li> <li>Referral letter given to parents to bring during appointment</li> </ul>	100% 100% 100%	0% 0% 0%	100% 100% 92% 100%	100% 100% 98% 100%
3.	Dedicated liaison officer at Klinik Remaja gives appointment date	Liaison officer receive referral from Telegram group and gives appointment to the nearest Klinik Remaja within 2-4 weeks	100%	0%	93%	<b>1</b> 97%

• Future plans for group therapy session for adolescent with similar problem and multidisciplinary approach consultation

• We aim to further implement this referral system to Klinik Remaja in other districts in Penang.

## **9. ACKNOWLEDGEMENT**
